

INFO 3604: Project

Mid Semester Presentation

Scheduled Time: Please select your time at the poll available on myLearning.

Presentation Duration: 15 minutes

- 8-10 minutes for presentation
- 5 minutes for questions
- NOTE: You will be timed. Groups will be stopped at 10 minutes. (Practice your timing.)

Details:

Students are required to present a high-level overview of their project. This serves as preparation for the final submission, provides an opportunity to share ongoing work, and allows you to receive constructive feedback. The presentation should summarize the interim prototypes and reports submitted thus far, while elaborating on key aspects related to the following questions:

- What is the problem that your project addresses or the opportunity that your project takes advantage of? (Domain area)
- Who will be the main beneficiaries of your project? (Target audience, users)
- How significant is your project solution? (Novelty/usefulness of your project)
- What are the goals and objectives of your project (Deliverables, prototype)?
- How is your solution implemented (Methodology flowchart for research projects, modelling diagrams, architecture diagram technologies)
- What does your system prototype look like? (Application/High fidelity prototype demonstration/ Presentation of initial findings, analysis of data collected for research projects)
- For live demonstrations you should open your render link at the beginning of the presentation so it will be ready when you reach the demo.
- Where has your group reached so far? Also, outline what remains to be completed.

Requirements

- All group members must participate in the presentation.
- The demo of the system must be on a deployed link embedded your ppt, opened on the presenter machine available (no personal machines/ no localhost) OR link to a youtube unlisted video demo
- You will be required to submit your ppt slide deck ahead of the presentation day
- Casual business attire is required.

Grading

This presentation is **5% of the total grade** for this course. The detailed rubric is as follows:

Criteria	Mark
Organization, timeliness, and quality of slides/visual aids.	5
Presentation content, mastery of domain, technical rigor of project, business appeal.	15
Diagrams.	5
Presentation and language skills.	5
Overall impression and presence.	5
